## Maitri programme 慈明课程

In the interim, the new Maitri Programme started on the 22 March 2021, with 7 and 8 years old students housed at the 6th floor of Metta HQ Building, adjoining Metta School in Simei.

We have 25 students in Maitri Programme (maximum capacity per batch), and they will transfer to the newly set up Maitri School in 2024.

We believe that all children on the spectrum are unique and their needs are different from one another. We will try our best to meet the needs of our students and design a student-centric curriculum.
